ALEC EXPOSED

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporationsincludes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With ALEC EXPOSED, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

DID YOU KNOW? Corporations VOTED to adopt this. Through ALEC, global companies work as "equals" in "unison" with politicians to write laws to govern your life. Big Business has "a VOICE and a VOTE," according to newly exposed documents. DO YOU?

Vote on Taxes Joint Resolution

Summary

Applying to the Congress of the United States pursuant to Article V of the United States constitution to call a limited constitutional convention for proposing the Vote On Taxes Amendment which would require that Congress obtain the consent of the governed before imposing new taxes, increasing the federal debt, mandating unfunded spending requirements upon the states and increasing federal spending above the base year adjusted annually for inflation and population change. The Amendment would allow two-thirds of the state legislatures to propose an identically worded Amendment which would be ratified if approved by a majority of voters in three-quarters of the states.
